Michie Lane Park /
Conceptual Plan

Re: Michie Lane Concept Plan

The Trails and Parks Committee has recommended the attached concept plan for the Michie Lane Park. This plan was developed by the Trails and Parks Committee and has been designed based on public comments gathered from those living in the immediate area of the park. The committee took the developer's proposed park plan and held an open house to gather public comment. Residents of the surrounding neighborhoods such as Bowden Fields, Fox Point and Fox Den came and commented on what they would like to see in the park. The committee received many great comments that were used to develop the attached plan. If the Council agrees to move forward with the proposed plan, then the details will be created which will help the city create a Request for Proposals to find a contractor to install the park. Budget constraints may limit the number of amenities and trees that are shown on the plan, but the hope is the items shown on the concept plan will all be included in the park.
