Lisa Kohler Christen

I was born and raised on a dairy farm here in Midway. My family is still here and running that dairy, one of the only dairy farms left in our community. I am the mother of 5 children. I am very passionate about Midway and our future. I have been a real estate agent in our valley for 15 years. I have worked in the hospitality industry here in Midway and managed businesses. I served as the President of the Chamber of Commerce and the Wasatch County Association of Realtors. I helped to organize the Midway Business Alliance and served as the president of that organization two different years. I am pro-business and hope to help keep our small businesses vibrant. I feel very strongly about keeping our small town feel. I hope to help find a way to keep open space and still respect property rights. I am approachable and want to listen and be educated. I am not afraid to change my opinion based on facts and learning new things about issue. I am very excited to serve and represent the people of Midway!
