Regulatory Branch (200250346) (J-D)

Mark Walsh
312 East 300 North
Midway, Utah 84049

Dear Mr. Walsh:

This letter concerns the delineation of waters of the United States, including wetlands, dated June 26, 2002, for your property. The delineation was submitted to this office for verification on your behalf by Hollis Jencks of the Jack Johnson Company. The property site is located at 373 East 300 North, lot 3 of the Swiss Paradise Subdivision, in Section 35, Township 3 South, Range 4 East, Summit County, Utah.

Based on a site inspection conducted by (b) (6) [redacted] of this office on September 19, 2002, we concur with the estimate of waters of the United States as depicted on the attached map. Approximately 0.495 acres of waters of the United States, including wetlands, are present on the site. These areas are regulated by this office under Section 404 of the Clean Water Act since they are adjacent to a tributary of the Provo River.

Under Section 404 of the Clean Water Act, a Department of the Army permit is required prior to discharging dredged or fill materials into waters of the United States. The type of permit required will depend on a number of factors, including the type and amount of waters affected by the discharge. For more information on how to obtain a permit from our office, please visit our website at http://www.spk.usace.army.mil/cespk-co/regulatory/.

This verification is valid for five years from the date of this letter unless new information warrants revision of the determination before the expiration date. A notice of appeal options is enclosed.

We have issued identification number 200250346 to this action. Please refer to this number in any further correspondence concerning this project.

If you have any questions, please contact (b) (6) [redacted] at our Utah Regulatory Office, 533 West 2600 South, Suite 150, Bountiful, Utah 84010, or email (b) (6) [redacted]@usace.army.mil, or telephone 801-295-8380, extension 13.

Sincerely,

ORIGINAL SIGNED

(b) (6) [redacted]
