

S.R. 113 Provo River Bridge

RENEWED
Bridge Rehabilitation in Midway

UDOT to Restrict Lanes for S.R. 113 Bridge Work

Expect One-Way Traffic Through April 2018

Beginning March 12, 2018, and continuing through April 2018, the Utah Department of Transportation (UDOT) will begin rehabilitation work on the State Route 113 bridge over the Provo River between Midway City and Heber City. To complete this work, construction crews are planning to close half of the bridge at a time from 9 a.m. to 9 p.m. Monday through Friday.

Anticipated Traffic Delays

Please plan accordingly as drivers will be restricted to one-way traffic and the travel lane narrowed to 11 feet wide. Motorists should anticipate travel delays of up to 10 minutes. Flaggers will be present to safely direct drivers through the construction zone. Please slow down and watch for crews working within the construction area.

For more information about this project, contact the project representative at **877-495-4240**, or via email at udotregion3@utah.gov. The construction schedule is subject to change due to inclement weather, equipment problems, and emergency situations.
