Subject: Re: DRAFT Job description and interlocal agreement

Good Afternoon All,

Thank you for your time and input at our meeting yesterday. Mayor Potter and I had a chance to catch-up this morning and below are notes/details based on our meeting(s):

- Wasatch County, Heber City, Midway City and Wasatch Mountain State Park prefer the funding option presented below:

MAG participation		
Heber	16,400 55% of population	7,000/yr
Wasatch unincorp.	8,226 27.5% of population	7,000/yr
Midway	5,257 17.5% of population	4,000/yr
MAG		+/-4,000/yr
Total 22,000		

- It is possible that MAG may come to the table with an extra \$1k.
- It is also possible that the Wasatch County Health Department and Wasatch Mountain State (friends' group) may be able to contribute funding to further disburse costs.
- The above funding option/amounts will be put to council vote on the dates below:
 - **Wasatch County Council**
 - Wednesday, January 22nd
 - **Midway City Council**

- Tuesday, February 4th
- **Heber City Council**
- Tuesday, February 18th

- Once the above funding is approved the draft ILA will go to legal review by each respective entity as necessary.
- A second vote will be put on future council agendas to approve the ILA once it has been reviewed and finalized by legal counsel.
- Focus for this planer should start with a review of trail master plans to ensure continuity and shared direction between all entities.
- Moving forward objectives will be identified that can best benefit the community in the very near future and demonstrate the success of the position.
- Future scope of work could include motorized trails and connectivity.
- With success, more funding could be acquired to expand the responsibilities, scope and hours of the trail planner.

I will keep everyone copied here posted as we move through the first round of Council meetings. Once we have the necessary approvals, we can look at setting another meeting to set dates for approval of the ILA, and initial wishes/scope of work for the future trail planner.

Please let me know if I have missed/omitted anything, or if there is anything else I can provide going forward. Thanks again for your time and input. Be well and create a great week.

Scott

All,

Attached is a draft of the job description and interlocal agreement. These have not been through legal review but I wanted to have the discussion in our meeting on Monday specifically regarding the interlocal agreement and the contributions.

Thanks

Doug Smith
