

# MAG/TRAIL PLANNER

# MAG/TRAIL PLANNER

- The trail planner will work with the planning departments of the various entities to provide support for active transportation of all types as well as technical expertise during the approval and construction process of trails.
- The position will review developments for compliance with applicable codes, meet with developers and staff and write staff reports with recommendations for decision makers.
- Furthermore, the selected applicant may present at planning commission and council meetings on various developments, review trail routes prior to construction, sign off on bond releases for completed trails, and apply for grant opportunities, as directed.
