Community Support

- Regular customers came every week
- Members of the community regularly commented how happy they were to have a local farmers market
- There were new customers that found the market nearly every week
- Several local chefs came to the market to purchase for their restaurants
- Out of town visitors often stopped by and supported vendors, and the farmers market added to their Midway experience

Thank you MIDWAY CITY COUNCIL for
your support in 2019!

We are excited for another great season
in 2020.
