Dear neighbor and local home owner:

After much preparation, the City of Midway and the Midway Historic Preservation Committee are ready to launch the Midway Historic Register of historical and/or architecturally significant buildings. We invite you to consider placing your home on this register. This is a local register and a way to recognize the special contributions your home or property represents to the history of Midway. As a way of increasing our efforts, we may have recently featured your home in the Wasatch Wave!

Whether you are descendants of early settlers or relatively new owners and members of our community, we hope that you will consider applying for this unique designation. It is a way to share the history of your home and help preserve our unique heritage and culture. The City and the Committee, with the assistance of professionals, have gathered some preliminary information available from public records. Copies are available at the City Recorder's Office.

To assist you in this process, the City of Midway and the Midway Historic Preservation Committee have developed *Standards for Rehabilitation and Design Guidelines for Midway Historic Properties* and *Criteria for Designating Properties to the Midway City Historic Register*. Together, these guidelines will help you determine if your property is eligible, identify what advantages or benefits there may be, and define what you will need to do to begin the process. Copies of these documents are included for your review. If you determine that your property is eligible, an *Application and Criteria for Designating Properties to the Midway City Historic Register* is included. Of course, members of the Committee are available to assist you in this effort or provide advice. If you are interested in joining the Midway City Historic Register, please complete and submit to the City for review.

We are excited about the next steps of our efforts and hope that you will consider joining the Midway City Historic Register.

Sincerely,

Connie Tatton, Mayor
Midway Historic Preservation Committee
