Impact Fees Projected by Expenditure							\$ 1,997,475.87

Notes

The City has \$214.49 in trails impact fees which have been held longer than six years as of 1 July 2015. It also has \$5,642.00 in trails impact fees which have been held longer than six years as of 1 July 2016. These fees have been retained, along with other trails impact fees, for the construction of the Homestead Trail (Phase I). The Trail will begin at Main Street and travel approximately two miles to a visitor's center at the Wasatch Mountain State Park. It will connect the heart of the City, the State Park, and two resorts with several rapidly growing residential areas. It will be a backbone of the City's trails system and provide safe and healthy recreation. It is anticipated that the encumbered fees will be expended in FY 2017, but no later than 30 June 2017, for the planning, design and construction of the Trail.
