	<b>Statewide 7-Day COVID-19 ICU utilization:</b>	36.3%	25%	15%	10.7%	10.6%	9.4%

**State Public Health Order effective Apr 10 – Jun 15, 2021** no longer requires masks statewide, however the mask requirement stays in place for:

- Group gatherings of 50 or more people where physical distancing is not possible—until certain metrics outlined in the bill are met.
- K-12 schools through the end of the 2020-2021 school year (June 15).
- Private businesses may keep mask requirements in place to protect employees and customers.

“Until more people have a chance to get vaccinated, we urge people to continue to wear masks in public places and around those who haven’t been vaccinated. We’ve come so far and are so close to returning to normal. We ask for your patience and cooperation a little while longer,” said Richard Saunders, executive director at the UDOH.

### Vaccine update:

**Total doses administered to Wasatch County residents: 18,489**  
**Received at least one dose: 11,715**  
**Fully vaccinated: 7,686**

**Johnson & Johnson vaccine administration is temporarily on hold** as the FDA investigates reports of blood clots in patients.

More than 6.8 million doses of the Johnson & Johnson vaccine have been administered in the United States, and six people have reported experiencing blood clots.

Nearly 77,000 Johnson & Johnson doses have been administered in Utah with no reports of blood clots among those patients.

More than 1.8 million doses of Pfizer and Moderna vaccines have been administered in Utah. These vaccines are unaffected by this announcement.

Moderna vaccine clinics will continue in Wasatch County this week. Find more information at [coronavirus.wasatch.utah.gov](https://coronavirus.wasatch.utah.gov) and additional COVID-19 vaccine clinics at [vaccinefinder.org](https://vaccinefinder.org).
